Welcome to Navy IPO's Foreign Military Training Web Site

Monday, August 13, 2001

This Foreign Military Training Web site is designed to ease the submission of course "Log Sheets" to the Navy International Programs Office (Navy IPO) and Naval Education and Training Security Assistance Field Activity (NETSAFA). A "Log Sheet" contains general course descriptions and materials used in the course (Publications, equipment, training aids, and other pertinent information). SECNAVINST 5510.34 mandates that these "Log Sheets" are submitted and updated for accuracy on a regular basis (in general, a yearly review will suffice). Navy IPO

depends on these for the disclosure review process. By clicking on your command name, you will see a list of courses associated with the command. By clicking on the specific course, you are able to edit your previous submission or generate a submission for the first time.
